Bericap Canada, Onatrio, L7L 6C5, Canada
Bericap Spain, 08430 La Roca del Valles, Spain
Bericap UK Ltd, HU7 0YN, Hull, GB
Terxo AG, 8623 Wetzikon, Switzerland

2. **Name of products:**

Pure-Pak[®], Slim[®] and Diamond[®] beverage cartons and Pak-Lok[®] closures.

3. **Composition of the product**

The Elopak cartons are manufactured by printing, cutting and sealing of coated paper board. The cartons are packed in boxes, palletized and wrapped.

The closures are pre-made and applied to the cartons after filling. The pre-made closures are manufactured from granulate of LDPE/HDPE/PP. The cartons are packed in boxes, palletized and wrapped.

4. Statement of conformity to the Essential requirements

Conformity with EN 13427 requires affirmative responses to sections 1.1,1.2, 1.3 and to at least one of 3.1; 3.2; 3.3. In addition, where a claim of reuse is made section 2 should also record affirmative responses.

	Assessment requirement	Elopak products	Affirmation
1.1 Prevention by source reduction	ensure only minimum adequate amount of material in the packaging system (EN 13428)	Compliance	yes
1.2. Heavy metals	ensure below maximum permitted levels for components (CR 13695-1)	Compliance	Yes
1.3. Dangerous substances	ensure in compliance with EN 13428	Compliance	Yes
2. Reuse	ensure reusability in all terms of the standard for the functional unit of packaging (EN 13429)	Not reusable	No
3.1 Recovery by material recycling.	ensure recyclability in all terms of the standard for the functional unit of packaging (EN 13430)	Compliance	Yes
3.2. Energy recovery	ensure energy recoverability in all terms of the standard for the functional unit of packaging (EN 13431)	Compliance	Yes
3.3. Organic recovery	ensure compostability in all terms of the standard for the functional unit of packaging (EN 13432)	Not compostable	No

The "Essential Requirements" of Directive 94/62/EC are a set of minimum mandatory legal requirements designed to reduce the environmental impact of packaging and avoid 'over-packaging'.

The obligation is on the packer/filler to demonstrate that the packaging or packaging component meets these essential requirements.

Based on information and documentation from Elopak's suppliers we confirm that beverage cartons and closures comply with the above regulations. In the light of the assessment results recorded in above this packaging is claimed to comply with the requirements of EN 13427.
